I just wanted to comment on the proposed increase on application fees for Citizenship. I think this makes good sense especially after applications have doubled in the last year! I know you have to hire more staff to process these folks. We have a disasterous immigration issue going on right now and taxpayers do not want to pick up the tab for those applying for citizenship!!

I frankly feel we should be limiting immigration and raising the fees even more that what you have requested!!

I have written to my state lawmakers telling them to vote for the increase in fees!

Thank you for doing your job and staying on top of this!!

Sincerely,

Shirley Cameron
