To Whom It May Concern:

As both an adoption professional and adoptive parent, I am writing to oppose the increase for the I 600 and I 600A petition fees. Fees were increased in the recent past - presumable to increase service and efficiency to the clients. In my opinion, having worked in the field of adoption for 12 years, service and responsiveness remains a problem in many regional offices. I would be interested in why a 66% increase in the fees is called for and specifically how those fees will improve service and where.
