I am writing to tell you
what I feel about the proposed
fee increases, especially the
increase in the Application
for Naturalization N-400 from
\$ 400. to \$ 675.

I got my green card in 1993
but I could not apply for citi-
zenship until now because I
didn't get the money, Now
I have the money just for

the \$400 after a lot of hard saving, the hispanic people make less money and it is more critical. Only my husband is the only one in my family who works because I take care of my children, who are 12 and 17 to raise them well.

this is a big sacrifice for my family because I heard on the news about this proposition to raise the fees.

As part of being a resident of this state of this country, I want to have the right to vote. With all these things going on in this country my vote as a hispanic has to count. That's why I want to be a citizen. My principal dream is I want to be a citizen because all my rights have to count.

Thank you for all your
attention.

Sincerely

Elia M. Aharado
