Re: USCIS-2006-0044, Director Mr. Gonzalez

Sir

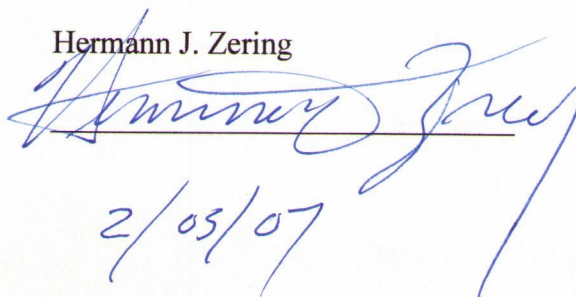

My name is Hermann J. Zering, I process Immigration through my PC. I am not an Attorney or a Para Legal. I recently started to help immigrants through this process in my community in the Village of Nyack New York. For my services I charge what most poor immigrants can afford, and that sometimes is nothing. I have studied all the immigration forms, fee's and rules regulations that apply.

I understand the need for service cost increases for the USCIS observation has it that it is not tax fundable. I suggest that the costs can be negotiated between the U.S. Treasury, USCIS and privet corp. that employ documented immigrants. The suggested burden fee on the poor is not high but affordable.

Mr. Gonzalez USCIS is part of the U.S. Government, and I do believe that the President and Congress can help you with the funds for USCIS. Immigrants and U.S tax paying citizens are burden almost to the limit to U.S. Government debt. If you must increase your costs, make them reasonable and palatable to the immigrants of average and poor income. Your proposed increases on some forms are to high, this will deter illegal immigrants to be documented, because of affordability. Consider other venues, new accountants that know the balance of a budget, restructure the pay base, eliminate redundancy and duplication. In my hart all immigrants deserve a chance, for I am an immigrant as all Americans are.

Thank You

Hermann J. Zering
