Subject: Docket No. US-CIS-2006-0044

Director, Regulatory Management Division, U.S. Citizen & Immigration Services,

I read the article in today's paper and I think and support the idea of raising the cost for all of them! It's about time. **And it should be higher for legal residence and citizenship.**

There should be no debate, **just raise it and keep raising it to cover our costs.** We need to be more selective who we let in this country, **and a limit per year.**

Thanks for the good work.

Elaine Alexander
