Subject: Docket #USCIS-2006-0044

To Whom it may concern-

I have been working on getting my wife & stepdaughter situated in the U.S. for near 3 years. After experiencing this process first hand I am humored by this proposal to increase fees. If this passes I would suggest you start providing a quality service also. I have never dealt with a bigger bunch of idiots in my life ANYWHERE! These people can screw up a free lunch. Im ashamed to talk about our countries immigration system now that I know how it works. If a private industry ran anything like this is being done it would be history! It also is scary to know that these people cant even handle a little paperwork let alone watch out for our safety. Please take this one step at a time and have them get their act together before giving them more money to flush!

Thankyou- Ralph Bruder
