I am immigration Attorney in San Antonio, Texas and via this e-mail would like to comment on your proposed filing fee increase. With respect to such fee increase, the words that come to mind to describe your intention are "outrageous" "exorbitant", "extortion" and "reprehensible". Your agency needs to find a way to be federally funded so that the intending immigrant does not have to "overly" pay for filing fees. I am appalled at your vicious attempt to increase your "bottom line". Perhaps Congress can earmark some of the monies that are to be sent to Iraq for the War to the issue at hand. God knows that the money would best be spent on immigrants who intend to legalize themselves than on a War that the majority of the American Public did not want to engage in.
