Subject: USCIS-2006-0044

I am writing concerning the proposed fee increase. Families adopting internationally have to pay this fee and now due to the increased waiting period will most certainly have to be refingerprinted and our I600-A will expire and we have already planned to have to pay the fees a second time. Now with the fee increase this will only add to the costs. It seems quite redundant anyway and the extra fee just stings even more. Please consider families adopting internationally and how much paying twice already is before you increase the fees for fingerprinting and I600A fees.

Thank you for your time and reconsideration of this issue,
Deborah Webb
