Reg: Adjustment of the Immigration and Naturalization Benefit Application and Petition Fee Schedule

First of all, I think this adjustment is outrageous. More than 80% increasing in one time? No way, I have not heard a such thing in any forms, anywhere. 5% to 8% is more acceptable. In addition, I don't see the Immigration Department will become more efficiency after all. This act only will decline the residents who want to become a U.S. citizen in the future.
