

February 24, 2007

To The Director of the Regulatory Management Division:

I am concerned about DHS Docket #USCIS-2006-0044. I am in a Citizenship class now because I want to become a U.S. citizen soon. I want to be able to go to spend more time in my country to visit my family and my family can come to visit me, too. I want to have a better job and to vote. I think if fees are increased by a lot, it will be difficult to pay. The people have to work to pay the bills. and food, and transportation, etc. In this case, it will be difficult to have extra money for the U.S. Citizenship and Immigration Services. Some people want to be citizens and can't because of the increase, and it is not fair.

Thank you,

Roseli S. F. Cain
