I have been recently reading regarding the increase in fees. I would not be opposed to the increase if it meant that the documents were valid for a longer time period. Presently, those of us who are adopting from China are finding that our documents are expiring before we can complete the adoption. Most of us are having to repeat our fingerprints and our I 171 h. Please take this into consideration when you are looking to greatly increase the fees.

Sincerely,
Dawn Rittenhouse
