Pursuant to the
cost of the proposal

to raise the cost of
becoming a legal resident for
U.S. Citizens, I firmly believe that
these costs should be raised even
more! it is high time the taxpayers
of the U.S. stop paying for most-all
of the "new" resident costs.

Why do I say this; a lot of these people
legally or illegally spend 2-3-8 thousand
dollars or more on a "Coyote" or human
smuggler- if they can pay this, they can
afford the miserly sums the U.S. Citizen
Ship & Immigration Services want to charge.

... Also When these people send 20
twenty Billion U.S. Dollars back to
Mexico, yes, they can afford the new
raise & even more.

Don't forget they use the hospitals,
schools & all social services already,
they are a cost to overburdened U.S.
taxpayers- fair is fair, even with
these raises- U.S. taxpayer still pay
for incoming residents.

I know this as a fact, paying high
hospital taxes & school taxes these people don't
pay for

THANKS - F.R.R.
