Subject: citizenship costs

I am writing to raise my voice against the dramatically high increases in the cost of applying for U.S. citizenship. The increased costs may deter those here illegally from applying, however, I am uncertain that it will keep people from immigrating in the first place, thus there is the problem of even more illegal immigrants. At the same time, it deters those who would make a fine contribution as legal citizens of our country from even trying, thus tying up the system even more. Please consider the many immigrants and refugees who have found a home in the U.S. who have a right to enter the process of citizenship and enjoy the rights we all know as Americans.

Thank you.

In Christ,

Pastor Elizabeth Ann Jaeger
