Subject: USCIS2006-0044

I am writing in order to voice my opposition to increasing the fees to start the naturalization process for immigrants. As the daughter of Irish immigrants I know how involved the process was to become a legal resident and later, a citizen. I am firmly against raising these fees for people who are trying to go through the process legally and who are here in order to contribute to our economy and make a better life for their families.

Sincerely,
Mary Geraghty
