Subject: Docket No. USCIS-2006-0044

What can I say. I am against the increasing the fees ,that charges for processing immigration applications. And I will explain why. I am married for a foreigner. She is in the country already 4 years. She was literally dragged by her father in USA. He've leaved here for 14 years and he is married to an american woman. In her country there was a lack of job openings. Also her father refused to pay for her education in order for her to get a job anywhere, because the standards there for a cashier are very high due to the lack of jobs as I already sad. He refused to pay for her education even, that by law he was supposed to, because he divorced her mother just couple of years ago, but she couldn't do anything, because he was here and she was in another country. So her father promised my wife, that if she comes over here, they will file for her paperwork. He also refused to do that while she was still back in her country due to- she had to arrive before the middle of the year, so he can get tax return for her, due to her being dependent and living with him at least 6 months. After she arrived her father started building a house. He was using her as a free labor for 8 months. Also he didn't file anything until her visa expired, so she couldn't even go back. After that the paperwork, that they send to the immigration office was incomplete and they took forever to send anything until she just got tired of the way she was treated, because she felt as she was a slave. Also her father is a racist, so when he hearth, that we date he simply didn't send the paperwork. She left them and we started living together. After 1 year and a half in our relationship, we got married. It is being already a year since we filed for her spending money for all the forms, which are basically 1400 dollars, because she had to file other paperwork, because of the one, that her parents filed first and never made copies of it. They had send the form I-94 without even making a copy and this is her only way to prove how she got here. However- we got the form finally. Also she has to pay another 350 dollars for physical now, plus all the expenses for the trips, that we've made to the INS "local" office, which is 3.30 hours away from our city. If we would like this paperwork to be proceeded faster of course we might need a lawyer, which cost from 2000 and up. My wife's work permit expired recently and they didn't want to renew it, because they were behind with the paperwork and almost everything, that we send them didn't work for us, because she wasn't working anymore and at first we were filing together. She opened a business, that she had to close, because of her paperwork. She has filed twice, where all the fees have been paid in full. She doesn't have paperwork yet. It might take forever again and how much more money do we have to pay. don't get me wrong. I am happy with all my hearth, that she is here and that I met her, but why does it have to be so unfair to people, that were forced to come over here and go thru so much headache because of others, that simply broke the law. How much more money do we have to pay in case, that everybody barely pays you the minimum wage, how much more paperwork do we have to send. She probably has a book filled with information in those offices and nothing is happening, why pay more money if nobody does anything for this paperwork, paperwork of an honest person, that all she wanted to do was just to live a normal life. Nobody did anything to her parents for treating her this way. Nobody called the police on him, when he slapped her in front of an apartment complex and dragged her for her hair, because all she wanted was just to run away from the slavery with these people. You answer me that and then decide if you really want to increase those fees.
