Subject: proposed adjustment/increase in I-485 petition fee

The USCIS intends to increase most of the immigration petition fees. One big proposal is to pay I-485 petition as a whole package (including I-765 and I-131). Isn't this a ridiculous idea. We have the right to file I-485 only; then why are we responsible to pay for the other two (I-765 and I-131)???
