The increases appear to be quite drastic and beyond many honest hard working immigrants who desire the same dreams many of our forefathers had. Perhaps the intent is making the land of immigrants so inhospitable with walls, block list, profiling, and an anxiety filled (now more costly) maze, so as to close our doors completely to those seeking the American Dream. Lady Liberty might as well fold her welcoming arms and go fishing! She can leave a sign in her stead, "Your kind not welcomed here no more!!"

Sincerely,

Jay E. Thurman,
