To whom it may concern:

I am writing this letter to express my concern over the proposed docket. I am opposed to this docket and feel that the prices should not be raised for the adoption of international/domestic children. Adoption fees are highly expensive as it is and raising the prices could cause some children not being placed into permanent loving homes.

I am personally outraged that this is even a consideration. I have had to scrap, save, and work extra hours at work to personally afford the adoption of my child which I am currently trying to adopt. Raises the prices will only make it more difficult for me and thousands of others families who I know are in the adoption process. I would appreciate your reconsideration of this docket.

Sincerely,
Leslie Cornett
