Subject:

Please hold the line on the costs incurred by immigrants applying for citizenship, bringing next of kin and other formalities required of them in establishing a new life in the U.S. They have a difficult enough time getting a new life established here without facing expenses which would act as a deterrent to their taking needful and proper actions toward becoming American citizens. The proposed increases seem totally unreasonable and would impose hardships on those who already face more hardships and red tape barriers than they need.

Joseph Dahlby, 2123 Orchard St., Racine, WI 53405
