Subject: Naturalization Fee Increase

Dear Sir:

What are the related fees that would be included in the naturalization proposed fee increase?
We only know of one extra fee "biometrics."

The \$400.00 fee (including biometrics) is already high for people which makes \$6.50/hr.

An increase in naturalization fees will make it more difficult for an applicant of low wages to apply.

I think that only people with extra money will be able to naturalize.

Have a lovely day.
