DHS Docket No. USCIS-2006-0044

Dear USCIS,

I am deeply concerned with the proposed increase in the application fee for U.S. citizenship and other immigration benefits. As a social worker and as a citizen of New York City, I have many friends, neighbors and clients that would be negatively affected by this increase.

I believe that USCIS should find a solution that promotes, rather than discourages, immigrant integration. I believe the fee increase would discourage low-income legal immigrants from pursuing permanent resident status and citizenship. This is clearly a strike against integration efforts. Encouraging integration is in national interest because it strengthens national security. Inviting and involving immigrants in our society's public institutions is good for our nation.

The United States is a nation that is strengthened by the contributions of newcomers of all backgrounds. Raising the obstacles to integration goes against this legacy.

Finally, I believe the cost of processing immigration and naturalization benefit applications and petitions should NOT be on the backs of prospective immigrants. I believe Congress should appropriate money for technology and infrastructure improvements at USCIS.

Faithfully submitted,

__Kristin D. Goodwin__
