Dear Citizens~

As a resident of El Paso TX for almost 30 years, all I'll politely say, it's about damn time! Although I have many friends from Juarez, the place is a third world country, it is dangerous to even go to the Mercado anymore.

For many years, I've thought Passports should be the ID of each citizen. If they can't "afford" the fee, then just drive around in your pretentious SUV and eat gasoline and muck around with frivolous lawsuits.

Our family's appreciation of these proposals are supported 100 per cent and you go, guys!

thankfully and sincerely,

MaryLynn Neill
